

The **Green Christian website** has plenty of other ideas to help you:

- Regular Church magazine articles for you to use and adapt for your own church.
- Ideas for Church seasons such as Lent and Harvest.
- Point your minister to 'Green Pointers for Preachers'.
- Monthly prayer diary with points for prayer and meditation.

Keep in touch:

- Contact Judith Allinson and sign up for our twice monthly e-news: webeditor@greenchristian.org.uk

Other Christian organisations which focus on the care of Earth include:

A Rocha focusing on educating and equipping the church to care for God's Earth while demonstrating practical involvement in nature conservation: Visit: arocha.org

Operation Noah – focusing exclusively on climate change. Visit: operationnoah.org

Shrinking the Footprint – ideas on how Churches can reduce their carbon footprint.

Send £30 cheque or £25 Standing Order (low income £12), £40 joint/family/corporate, or a donation for church membership (recommended amount £40) to: Green Christian Membership, Flat 1, 31 St James Terrace, Buxton, Derbyshire SK17 6HS.

Cheques payable to Green Christian.

How to become an Eco Church or Eco-congregation

Eco Church is a scheme managed in England and Wales by A Rocha UK to help Churches demonstrate care for God's Earth. In Ireland and Scotland the scheme is still called Eco-congregation.

It's about incorporating the biblical ethic of environmental stewardship into the spiritual values, practical action and community involvement of Church congregations. Participating Churches first conduct an Eco Check-Up and then formulate an action plan to address the areas identified for improvement. There is a wealth of downloadable resources available to help Churches achieve the goals set out in their action plan.

Visit: ecochurch.arocha.org or

Visit: ecocongregations.scotland.org or

Visit: ecocongregation.ireland.com

The successful completion of the action plan earns Churches the prestigious Eco Church or Eco-congregation Award.

Eco-Check-up for Churches

How green is your Church?

It's not difficult for your congregation, building and church office to become more eco-friendly. You're probably already doing more than you think. The questions inside this leaflet give you an idea of what is involved in an environmental check-up. On the back is information on how to become an Eco Church or Eco-congregation and some ideas on raising environmental awareness in your Church.

GreenChristian

Environmental Check-Up

Chelmsford Cathedral, pictured on the front of this leaflet, was the first Eco-cathedral in the UK. Whether you worship in a cathedral or a small chapel use these questions to find ways to make your church more eco-friendly.

1. How regularly during the year are environmental concerns included in worship?
 - never
 - occasionally
 - only at special services e.g. harvest
 - frequently
2. Does your church include creation/environmental issues in its teaching, studying or preaching programme?

yes	no
-----	----
3. Has your church involved young people in auditing and improving the environmental management of the premises?

yes	no
-----	----
4. Has your church invited a speaker on environmental issues?

yes	no
-----	----
5. Have you insulated the church buildings wherever possible?

yes	no
-----	----
6. Do you choose appropriate size rooms wherever possible?

yes	no
-----	----
7. Do you timetable meetings to minimise heating use?

yes	no
-----	----
8. Have you fitted energy-saving light bulbs?

yes	no
-----	----
9. Do you encourage building users to switch off unnecessary lights and not leave items on stand-by (e.g. photocopier)?

yes	no
-----	----
10. Have you checked water outlets – and fixed drips and leaks?

yes	no
-----	----
11. Have you installed water-saving devices (e.g. dual flush toilets and low spray flow or auto turn-off taps)?

yes	no
-----	----

12. Have you checked the environmental policy of your bank to see if you are satisfied with it?

yes	no
-----	----
13. Do you use environmentally-friendly cleaning materials and paint?

yes	no
-----	----
14. Do you purchase Fair Trade products (e.g. tea and coffee)?

yes	no
-----	----
15. Do you use local suppliers where possible (so supporting the local economy)?

yes	no
-----	----
16. Do you use crockery rather than disposable cups and plates?

yes	no
-----	----
17. Does your church have collection facilities for recycling items which can be used by church members, building users or local community (e.g. cans, spectacles, stamps, printer cartridges, clothes, shoes, foil)?

yes	no
-----	----
18. Do you purchase recycled paper and envelopes (to close the loop)?

yes	no
-----	----
19. Is your churchyard management wild-life friendly (e.g. minimal use of weedkillers and pesticides, leaving some areas unmown, valuing old trees, hedges walls and stones)?

yes	no
-----	----
20. Does your churchyard have other features to benefit wildlife (e.g. bird feeding station, bird nest boxes, bat boxes, piles of leaves and rotting logs for insects and hedgehogs)?

yes	no
-----	----
21. Is there a place outside for prayer/contemplation/outdoor worship?

yes	no
-----	----
22. Does your church magazine publish green tips?

yes	no
-----	----
23. Does your church encourage walking, cycling and car sharing to church?

yes	no
-----	----

24. Does someone read the meters regularly to assess the church's energy use?

yes	no
-----	----
25. Has anyone calculated the carbon footprint of your buildings?

yes	no
-----	----
26. Is the congregation encouraged to reduce their carbon footprint in their everyday lives?

yes	no
-----	----
27. Does your church support overseas development/climate adaptation initiatives?

yes	no
-----	----
28. Has your church drawn on links that members have with environmental bodies?

yes	no
-----	----
29. Has your church supported or initiated environmental community schemes (e.g. cleanups, involvement in a transition town group)?

yes	no
-----	----

The Next Steps

Pass this leaflet on to your minister, and/or to your Church council. Ask them to celebrate what your Church is already doing well and to consider what further steps you can take to make your Church more eco-friendly.

Ideas to raise environmental awareness at your church

Especially useful is the Green Christian **ecocell programme**. For modules to use in group work, bible reflections and measuring tools. Visit: greenchristian.org.uk/ecocell

Hold a **LOAF** meal to get people thinking about food issues: **LOAF** stands for **L**ocally produced, **O**rganically grown, **A**nimal friendly, **F**airly traded. Visit: greenchristian.org.uk/loaf

Produce an environmental policy for your church.

Set up a Green Group.

Organise a green library.
