Living the Truly Sustainable Life

Saturday 21 January 2012 10.00 am to 5.00 pm
The Magdalen Centre, St Mary's Church, Eversholt Street, London NW1 1BN

Join Christian Ecology Link for a day of workshops on sustainable living on Saturday 21st January 2012 in central London, with guest presenter George Marshall, author of the easy-to-read book "Carbon Detox : Your step-by-step guide to getting real about climate change".

<http://www.carbondetox.org/>

George will be offering his usual fact-packed and lighthearted insights into action on climate change, drawn from his experience of over a decade of community and policy work.

The event is being organised by the ecocell team at CEL, and will be suitable for anybody already taking part in the ecocell project, or anybody interested in starting. The workshops on the day will be pitched at several levels.

The **ecocell1** workshop group will look at the introductory programme to help your family or church group take their first steps to reducing their impact on the environment.

The **ecocell2** workshop will look at the more in-depth project, to provide mutual support for those who want to reduce their carbon emissions to sustainable levels within five years.

For further information, or to book a place, please email Tony Emerson ecocell@christian-ecology.org.uk or telephone 0208 769 4078

More details about the ecocell programme can be found on our website :-
